### ***Terminal Disclaimer***

The terminal disclaimer filed on May 22, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on Application Number 10/193,598 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***REASONS FOR ALLOWANCE***

The following is an examiner's statement of reasons for allowance:

Claims 1-17 are allowable over the prior art of record because the prior art does not teach or suggest a process comprising electrochemically reacting a monomeric composition comprising thieno[3,4-b]thiophene, to form a polymeric composition comprising units derived from the thieno[3,4-b]thiophene.

The prior art does not contain any language that teaches or suggests the above. *Neef et al.* do not teach a thieno[3,4-b]thiophene. The 2-phenylthieno-[3,4-b]thiophene disclosed by *Neef et al.* has very different conjugated bonds, and thus, very different physical and chemical properties than thieno[3,4-b]thiophene, such as thieno[3,4-b]thiophene possesses three reactive sites alpha to the sulfur atoms.

Therefore, a person skilled in the art would not have been motivated to adopt the above conditions, and a prima facie case of obviousness cannot be established.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edna Wong whose telephone number is (571) 272-1349. The examiner can normally be reached on Mon-Fri 7:30 am to 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam Nguyen can be reached on (571) 272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
